

The image is a screenshot of a software application window. On the left side, there is a sidebar with a list of items: Drafts, Pending, Active, Failed, Saved, Favorites, Tagged (0), UDC, Queue, and Trash. The main area of the window is divided into two sections. The top section is a header or menu bar with options like File, Edit, View, and a search bar. The bottom section is a large text area containing the text: "Automatically or automatic or dynamic ad? (size or resize) ad? (ad or advertising or advertisement) and (greatest or highest or most or expensive) ad? (cost or price or amount)". In the top right corner of the main area, there is handwritten text: "EAS word search 4-16-04" and a signature. The interface appears to be a search or document management tool.

... and any other future electronic media such as. computer based interactive networks can be sold in what will be called the "SNAP" market.

Market Sizefor *Dynamic* *Ad*-avails

The *size* of the market's product availability will fluctuate with the units of interactive cable, broadcast, or electronic media advertising spots, which are allocated for sale...market rules. These rules require that the vendor guarantee ad spot placement to the highest bidder at the prescribed close of the bids at the *highest* *price* offered. Among other rules. the vendor must be a SNAP member.

Referring now to FIG. 1, FIG. 1 illustrates a representative Ad buyer 102 and...
